

Ink

We do not recommend specific inks or coatings. Every job is different and has different requirements. We recommend that you explain your requirements to your suppliers of ink, coatings, and fountain solution and get their recommendations prior to running a job. We will gladly supply them with samples of Polyart to test. By prior testing you can be assured that your suppliers are providing the correct products to produce a quality job. For testing samples contact us at (800) 765- 9278 ext. 134, or ext. 136.
