

— the synthetic paper —

Standard Polyart

You want it all: the durability of plastic, the printability of paper? Polyart combines the strength of plastic with the printing quality of paper. Polyart stands up to water, grease, weather and chemicals; plus it beautifully reproduces all your most imaginative ideas. That means Polyart is the perfect solution for virtually any application.

Our unique clay coating results in supremely vivid, rich colour and gives Polyart the versatility to print in a variety of sheet fed and web print technologies.

Sales Specifications for Polyart - Sheets

Standard sheet and roll sizes are stocked at fine paper distributors throughout the world.

Also, special sheet and roll sizes are available with a **standard minimum** at 1,000lbs./455kg.
