

Polyart[®] FOR WRISTBANDS

— the synthetic paper —

Why Polyart?

Its properties are particularly well adapted to wristbands for special events, festivals, amusement parks, bars, sporting events...

- Polyart is tear resistant.
- Polyart resists water and many chemicals (chlorine).
- Polyart looks and feels like paper, it is soft and comfortable to wear.
- You can write on Polyart with a pen (phone number, contact...).
- Polyart is compatible with traditional printing technologies: offset, flexo... and with digital printing like UV inkjet, Xeikon Ice and HP Indigo with proper primer.
- Polyart can also be printed by thermal transfer printing with a wide range of ribbons for numbering, bar coding and personalisation.
- Excellent print quality, allows sharp printing with bright and attractive colours.
- Easy to die-cut.
- For enhanced security wristbands, Polyart is available with embedded security features and can be laminated to NFC chips.
- Polyart contributes to the respect of the environment. Recyclable, chlorine-free, its manufacturing process does not include harmful or polluting substances. Polyart is approved for food contact and toy applications.

Polyart synthetic paper consists of a matt coated HDPE film manufactured with a proprietary process, that gives the product its specific and unique properties and is recyclable.

It is manufactured by Arjobex a company of the group Polyart.

Polyart for wristbands

Tear resistant

Resistant to water and chemicals
